IN THE MATTER OF THE APPLICATION) Application for authority to construct or
 OF,) acquire an electric transmission line(s)
) and/or related facilities.
 Board of Public Works)
 1600 O street) Application No.: PRB- 4074
 Auburn, NE 68305)
) Applicant File No.: 4074
)

Auburn Board of Public Works applies to the Nebraska Power Review Board for an order authorizing it to construct or acquire an electric transmission line(s) and /or related facilities in Nemaha County, Nebraska, as set forth below.

(1) Description of proposed electric transmission line (s):

Items for description	Miles	Voltage	Phase
<u>overhead</u>	<u>3,750 feet</u>	<u>7.2/12.5</u>	three
<u>underground</u>	<u>1,100 feet</u>	<u>7.2/12.5</u>	three

(2) **Engineering Specification:** Applicant MAY attach to this application, as an exhibit, the following information if known:

- A. Type of System (Delta, Wye connected)
- B. Poles (Type, number per mile)
- C. Conductors (Size and Type)
- D. Insulators (Size and Type)
- E. Type of Construction (H-Frame, etc.)

(3) Purpose of construction and description of related facilities: Build approximately 3,750' of overhead, and install approximately 1,100' of underground line, 7.2/12.5 volt three phase, 1/0 wire with wooden poles and boring/trenching 4" duct to serve future rural water well.

(4) Name, address, and type of customers to be served:
Nemaha county rural water dist. #1

(5) Attached and designated, such as "Exhibit "A"" (if more than one exhibit, number the first "A-1", the second "A-2", etc.), are maps and other related exhibits showing location of proposed transmission lines and related facilities, and any other information deemed necessary or useful in the considerations of this application.

(6) Construction or acquisition of the proposed electric transmission facilities, electric transmission line, and/or related facilities is currently estimated to start on or about July 2026, and to be completed on or about September 2026.

(7) The estimated cost of construction is \$170,000.

Is there any financial contribution by the customer? Yes

If there is a financial contribution by the customer, how much was the contribution 100% at this time, of total price

Is this contribution included in the estimated construction cost? Yes

(8) The owners of electric generation facilities, electric transmission lines, and/or related facilities, and any other persons or organizations known to the applicant whom the applicant believes to be interested in the application are:

Omaha Public Power District

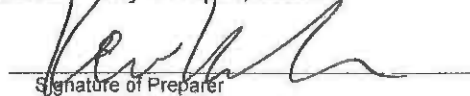

(9) Waivers and consents from the following are attached:

Omaha Public Power District

(10) Safety Standards. The design of the transmission line(s) as set out in the foregoing conforms to the standards set forth in the most recent edition of the National Electrical Safety Code.

(11) The proposed electric transmission line, and/or related facilities will serve the public convenience and necessity, and the applicant can most economically and feasibly supply the electric service resulting from the proposed construction or acquisition without unnecessary duplication of facilities or operations

Subject: Consent and waiver for construction- Nemaha County Rural Water Dist. well

Dear Wyndle;

We have been requested to serve 3 phase power to a possible new site for a rural water well. The location of the new site is at the intersection of 726 Rd and 646 Ave., in Nemaha County. (see attached map) The location of our existing three phase distribution line is currently just west of intersection 726 Rd and 647 Ave. If the project would move forward we would build some overhead line where feasible, as well as underground in the areas of existing OPPD lines.

We have enclosed a waiver and a map of the site for you to review. If the waiver is acceptable, please execute it and return it at your earliest convenience.

Thank you

Sincerely,

Kevin Kuhlmann
Electric Manager

NEBRASKA POWER REVIEW BOARD

IN THE MATTER OF THE)
APPLICATION OF,) CONSENT AND WAIVER
)
Board of Public Works, City of Auburn) Application No.: PRB- 4074
Nebraska)
) Applicant's File No.: 4074

Omaha Public Power District enters its appearance before the Nebraska Power Review Board for the purpose of consenting to the approval, without hearing, of an application by the Board of Public Works, City of Auburn, Nebraska, to construct or acquire approximately 3,750' of three phase overhead, and approximately 1,100' of three phase underground 7.2/12.470 kv line to feed a possible new Rural Water District well.

Omaha Public Power District stipulates that the proposed construction or acquisition by the applicant will serve the public convenience and necessity and the applicant can most economically and feasibly supply the electric service resulting from the proposed construction or acquisition without unnecessary duplication of facilities or operations.

Omaha Public Power District waives any and all notice of this matter.
